What is the Tour de Fleet?

Tour de Fleet is a nationwide tour of events with focus on the car fleet management sector in the Czech Republic. The Tour consists of both outdoor as well as indoor activities organised in appealing locations of the Czech Republic. The events are well received by professionals both from fleet operators as well as from wide range of suppliers.

The goals

- Connecting both sides of the fleet business, i.e. the suppliers with their current as well as potential clients, the fleet operators, on the countrywide base.
- Support of both business and professional communication and networking in the area of the fleet management.
- Experience exchange between the fleet operators and education of fleet and other managers.

The Konverso, s.r.o. company, the publisher of the FLEET firemní automobily magazine is the promoter of the Tour de Fleet 2019.
